Dear colleagues,

The American Association of Veterinary Immunology (AAVI) appreciates the opportunity to organize and welcome you to the 12th International Veterinary Immunology Symposium (IVIS) in Seattle, Washington, USA on August 13-16, 2019. IVIS is your meeting, a time for all veterinary immunologists (industry, academia, government, private sector) to convene and share recent discoveries, develop collaborations, and inspire the next generation of veterinary immunologists. Veterinary immunology research is vital for the development of innovative strategies to limit disease burden globally, and enhance the health of domestic, companion, and wildlife species. Veterinary immunology provides insight and solutions for tackling infectious diseases and cancer, and offers a broad understanding of immune system evolution. Our challenges are plentiful, but our collective willpower and resolve overcome the scientific and feasibility challenges. We hope that IVIS2019 provides an opportunity for you to GET CONNECTED – catch up with distant colleagues, form new collaborations, identify new trainee/training opportunities, build your scientific network, find inspiration for a new line of investigation, identify clever solutions, and engage in robust discussion. We have organized scientific sessions around a variety of relevant and cutting-edge themes, and included workshops and networking sessions to enhance interactions. Seattle provides an excellent backdrop for IVIS2019, with numerous nearby activities, including Elliott Bay and the Space Needle. We truly look forward to welcoming you to IVIS2019!

On behalf of the AAVI Organizing Committee,

Crystal Loving
IVIS2019 Organizing Committee Chair

Dear colleagues,

The Veterinary Immunology Committee (VIC) of the International Union of Immunological Societies (IUIS) warmly welcomes you to the 12th International Veterinary Immunology Symposium (IVIS) in Seattle, 2019. The 12th IVIS will be unique as, for the first time, it will be held on a different continent from the IUIS International Congress of Immunology (ICI) being held in Beijing, China in 2019. This has been made possible by the American Association of Veterinary Immunologists (AAVI) who will be hosting the 12th IVIS in partnership with IUIS VIC. Veterinary Immunology has an important role to play in the development of sustainable disease control strategies for animals with all the associated benefits for human health and wellbeing. The vision of IUIS is ‘Immunology without Borders, a vision mirrored by this unique partnership between IUIS VIC and AAVI. Together we are planning a vibrant, innovative and stimulating programme for the 12th IVIS that encourages the global veterinary immunology community to ‘Get Connected’ for collective benefit.

We look forward to seeing you in Seattle.

Gary Entrican
Chair, IUIS VIC

SPONSORSHIP OPPORTUNITIES

Industry involvement is one of the key elements to the success of IVIS 2019 in Seattle. Your presence and contribution enhance the overall scientific impacts of the conference—through promotional opportunities, scientific exchange and community engagement.

In principle, all sponsors will be treated on a „first come, first served“ basis and will be mentioned in all Conference Publications, such as the Final Programme and the Conference Website.

Should sponsors wish to organize an event before, during or after the conference, written consent from IVIS VIC is required. Sponsors are welcome to offer additional events; however, these may not take place parallel to any official Conference Events.

We look forward to working with our industry partners to help achieve their respective conference goals and objectives for the IVIS 2019 in Seattle.

To participate at IVIS 2019, please complete the application form on the last page and email back to K.I.T. Group.
